- Mounting Location: Floor, Wall, Building Façade, Fence, Balcony, Terrace.

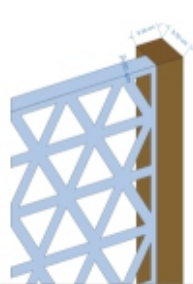

FIXING & INSTALLATION OF DECORATIVE PANELS

WOODEN POST FIXING

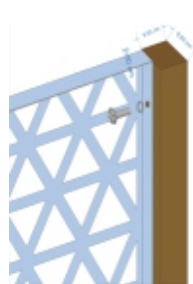

Recommended fixing and installation details when choosing pressure impregnated wood posts. Its recommended that posts to be dug 80 to 90cm down for best stability. Ready concrete can be used as well or Pole feet from Steel are recommended for better stability. Under special conditions where high winds or lose ground is the case deeper than advised is better to be opted.
